Recommended workflow

Step	Action
1	Set school name, teaching days, periods, breaks and register period.
2	Add teachers and maximum workload.
3	Add primary and secondary classes as required.
4	Add subjects by grade/class group and periods per week.
5	Assign teachers to subjects and classes.
6	Create split/combination blocks where subjects must run together.
7	Run Pre-Check, then Generate Timetable.
8	Use manual move/swap and reports to refine the timetable.
9	Print or export class, teacher and school views.

Important reminders

- Do not overload a class beyond available teaching periods.
- Do not assign the same teacher to impossible clashes.
- Use split/combination blocks when different subjects must run in the same slot.
- Use Regenerate when you want the system to try a different arrangement.
- Use Backup before major changes.
